"I had never fully appreciated the importance of stopping and assessing my way of looking at the world and how I interact with people. Considering this, I was lucky to get the mentoring and coaching of Reva Maam at a very critical juncture in my career. Within a 2 month period before joining the PGP program at IIMA she mentored me through holistic psychometric assessment tests and their interpretations. Initially I did have reservations about how we would identify areas to work upon and structure an effort to improve on them. The seamless coaching helped me identify simple actions which have made a big difference in my personal relationships and professional interactions. The open conversations about my aspirations, what I should be prioritizing and how I handle my relationships went a long way in helping me on the personal and professional front.

Reva Maam has been my mentor since the last two and a half years. Post my MBA, she continues to play a key role in helping me make the right career choices and also to succeed to my potential. I really appreciate the fact that she spends time to understand my point of view and helps me in thinking through actions which I can confidently try out. Her collaborative attitude has made it easy for me to seek guidance in personal areas too."
